

Pairing to CollabOS Device

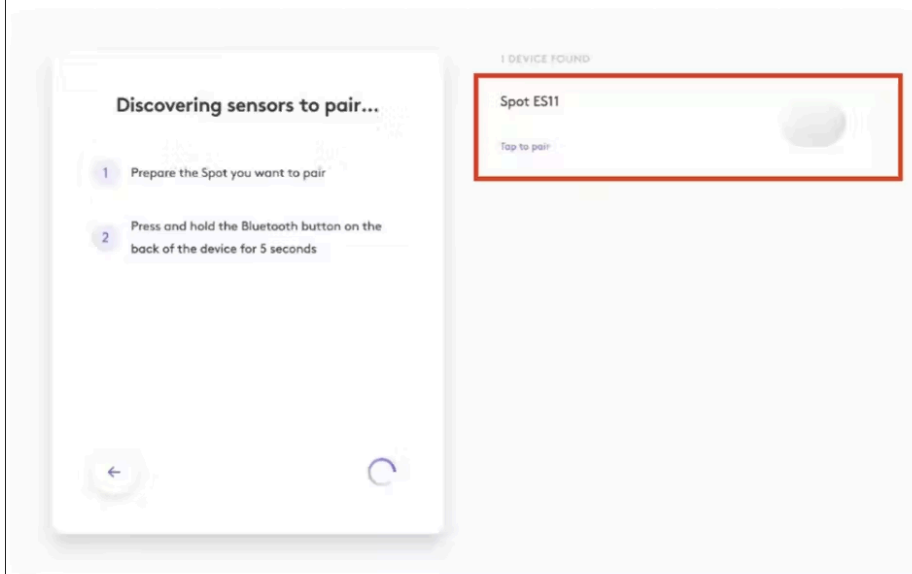

1. Press BLE button for 5 seconds until LED blinks blue

2. Spot enters pairing mode and looks for CollabOS devices
3. Go to Device Settings on your Tap Scheduler (CollabOS 2.0.41+)
4. Go to Peripherals

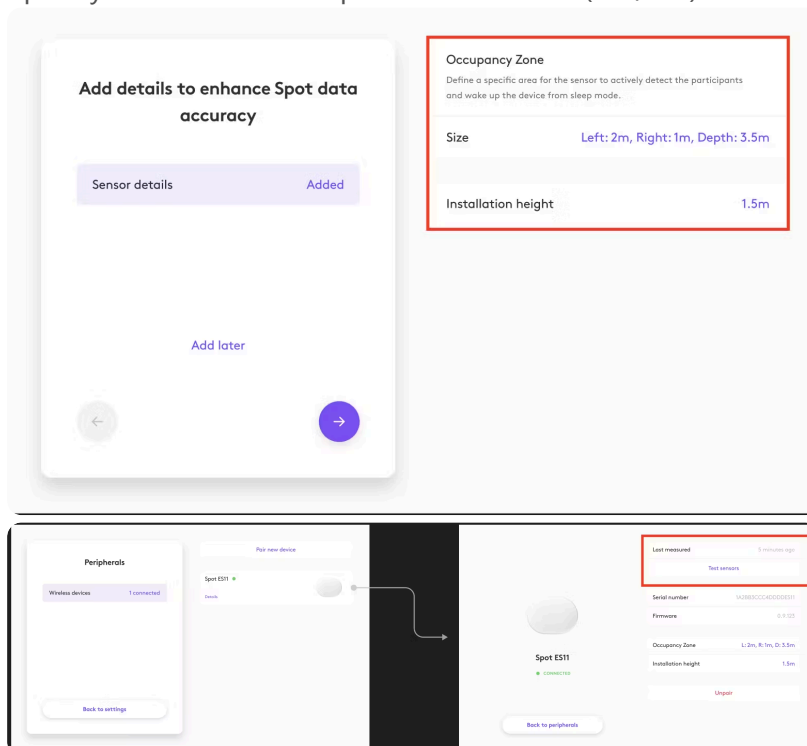

5. Click "Wireless device" > "Pair new device"
6. Choose your Spot from the list of available devices using the last 4 digits of the Serial number

7. Finish the setup process

- Configure the Occupancy Zone and confirm (Temporarily disabled, expected to be available again soon, Please skip this step for now)
- Input Room Dimensions
 - Enter room height, width and depth
 - Specify if the room has openable windows (Yes/No)

8. Check that the Sensor status is correct

9. Your Spot is now set up and connected to your Room in Sync
