RE: Statement of Conformity for DFS Client Device without Radar Detection

Logitech Far East Ltd ("the applicant"), hereby declare that pursuant to FCC KDB 905462 D03, the client software and associated drivers will not initiate any transmission on DFS frequencies without initiation by a master device.

This restriction includes, but is not limited to:

- The client shall not transmit before receiving appropriate control or initiation signals from a master device.
- The client shall not independently initiate transmissions, including beacons, on DFS frequencies while in non-associated mode.
- The device shall not support ad-hoc or peer-to-peer operation that initiates transmissions on DFS frequencies without initiation by a master device.
- The client operation on DFS frequencies is controlled by the master device in accordance with the applicable FCC requirements and KDB 905462 D03.
- The above declaration applies to all applicable client software, firmware, drivers, and user-accessible operating modes for the device configuration covered by this application.
