JANUS™ Interior OBU Family – 801660B Label and Location

References: FCC: JQU 801660B
Industry Canada 2665A-801660B
801660B Model Differences

The following defines the label and the location of the label for the JANUS™ Interior OBU Family.

Due to the need to place other jurisdiction regulatory permanent labels on the certain models (801990B-TAB, 802690B-TAB and 802700B-TAB) , it is not considered practical to place the information required by 47 CFR Part 15 on those models such that it is readable. Therefore in accordance with 47 CFR 15.19 (5) for those specific models the statement required by Part 15 is provided in the mounting instructions that are to be supplied to the user, a copy of which is included in this application.

Label Size

For models 801660B-TAB, 801970B-TAB, 801990B-TAB and 802690B–TAB the permanent label is 2.3 (wide) x 1.65 (high) inches on the back of the unit.

For models 802001B-TAB and 802700B-TAB the permanent label is distributed over the entire surface of the unit which is 3.66 (wide) x 1.95 (high) inches.

Label Location

The label is located on the rear of each unit and is engraved into the unit. The unit rear is shown in the following pictures.

Rear view of Models: 801660B-TAB, 801970B-TAB, 801990B-TAB, 802690B-TAB

Note the picture does not show the final version of the permanent label text – this is shown in the next section.

Rear view of models: 802001B-TAB and 802700B-TAB

Note the picture does not show the final version of the permanent label text – this is shown in the next section.
