

Product Name: JANUS® MRFM-S with External Amplifier

Model: 802295AA

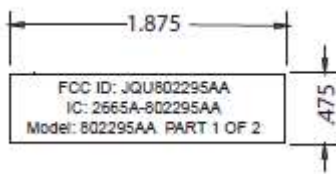

Date: June 12, 2015

Subject: Label Format and Location

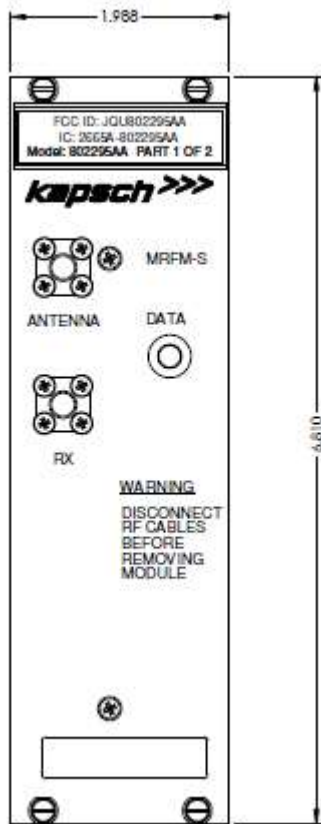

---

The regulatory identification label (FCC ID and IC) is identical for all the models requested in this application. The model consists of 2 parts (Module and Amplifier Assembly). Each part is labelled to show that they form part of the model.

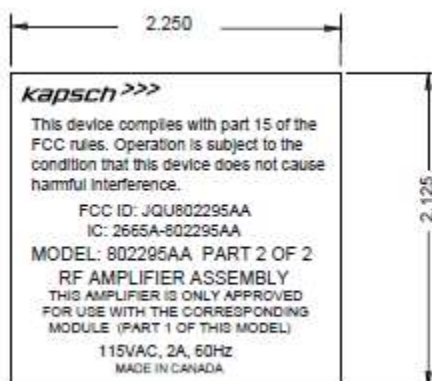

The module label is shown below:

This label is located on the front of the MRFM-S transceiver as shown in the following drawing:

Each amplifier assembly is also marked with the following label.

The location of this label on the amplifier assembly is shown below:
