ATTN: Diane Poole, FCC Application Processing Branch

RE: FCC ID JYLMK9A
Correspondence Reference Number 25441

Dear Diane,

Pursuant to the inquiry regarding justification of our request that interior photographs remain confidential:

It is our intent and desire to be fully compliant with the FCC in every respect. However, the internal pictures of this product identify key components used in the circuit, as well as proprietary layout and packaging techniques. Since this product is unique in the market, disclosure of the internal photos would put Telonics at a disadvantage and provide an unfair advantage to our competitors. On this basis, we respectfully request that the internal photographs remain confidential in the same sense as the schematic diagrams. We understand that such requests place additional workload on the FCC and that your staff is heavily loaded. You may rest assured that we will continue to be mindful of this and that we will make every effort to minimize such requests on future designs.

Thank you for your assistance and understanding in this matter.

Sincerely,
Telonics, Inc.
