RE: Request for new original filing on FCC ID: K44431501

To Whom It May Concern:

JVCKENWOOD Corporation is submitting an application for FCC Class II Permissive Change to the existing FCC ID: K44431501 UHF DIGITAL TRANSCEIVER.

The changes filed under this application are:

- RF power FET change.
- PCB Pattern change and addition of passive components.
- There are no changes to the other hardware, circuits and software.
- There are no changes to the frequency band and RF output power.

This application is submitted in support of the TNF C2PC filing associated with the hardware modification described above. Except for this change, all other parameters remain identical to those in the latest filing.

We confirm that above change are all within the scope of a C1PC based on DTS and DSS testing according to KDB 178919.
