## Introduction

---

Congratulations and thank you for purchasing the *Bluetooth* Hands-Free Headset and Audio Adapter from Belkin. The Headset features breakthrough *Bluetooth* technology that lets you create efficient wireless communications with your cell phone. Please review this manual carefully to ensure that you get the most from your product.

### Product Features

The *Bluetooth* Hands-Free Headset and Audio Adapter is compliant with *Bluetooth* standard version 1.1 and provides:

- Support for the Headset and Hands-Free Profile
- Compatibility with *Bluetooth* technology-enabled phones as well as with phones that are NOT enabled with *Bluetooth* technology
- A moldable ear hook, providing a comfortable fit with SoftHold™ technology

## Introduction

---

- Built-in security: up to 128-bit encryption and authentication

### Compatibility

#### *For phones not enabled with Bluetooth technology*

The *Bluetooth* Hands-Free Headset works with phones that are not *Bluetooth* technology-enabled using the Audio Adapter that plugs directly into your mobile phone with a 2.5mm jack.

Belkin offers adapters for phones that do not have 2.5mm jacks, so that you can easily connect them as well. Check our hands-free connector chart on the next page to find the Belkin Adapter designed for your phone—or check with your phone manufacturer to determine the type of hands-free connector that is built into your phone.

| 5 quick red flashes                  | Headset is being turned off   |
| Continues blue/red flashing          | Headset is in pairing mode    |
| Flashes blue once every 3 seconds    | Headset paired but not active |
| 3 quick blue flashes every 3 seconds | Headset paired and active     |

## Getting to Know your Hands-Free Headset and Audio Adapter

| Audio Adapter LED                 | Status                            |
|-----------------------------------|-----------------------------------|
| Red and blue on                   | Adapter is being turned on or off |
| Continues blue/red flashing       | Adapter is in pairing mode        |
| Flashes blue once every 8 seconds | Adapter paired but not active     |
| 1 quick blue flash every second   | Adapter paired and active         |

## Before you Begin

**Warning:** The *Bluetooth* Hands-Free Headset and charger feature built-in magnets that allow them to dock with each other. Keep magnets at least two feet away from computer hard drives, and other magnetic storage media, monitors, televisions, VCRs, videotapes, cameras, camera film, credit cards, etc., to avoid data loss.

## Charge your Headset and Adapter

Your *Bluetooth* Hands-Free Headset and Audio Adapter are equipped with rechargeable lithium-polymer batteries, which must be charged prior to use.

## Before you Begin

### Charging your Headset:

1. Plug one end of the power adapter into the desktop charger and the other end into an available 110V AC electrical outlet.
2. Insert the Headset into the desktop charger.  
The charging indicator on the charger will illuminate red.
3. Charge the Headset until the red charger indicator light goes out (approximately two hours).

**Note:** The red indicator light will be on while the Headset is charging and will turn off when charging is complete.

## Before you Begin

### Charging your Audio Adapter:

1. Using the Audio Adapter charging cable, plug the larger end to the Audio Adapter and the other end to the power adapter into the desktop charger (smaller DC jack).
2. The Adapter charging indicator on the charger will illuminate red.

Charge the Adapter for approximately two hours or until the red charger indicator light goes out.

**Note:** The red indicator light will be on while the Audio Adapter is charging and will turn off when charging is complete.

## Before you Begin

### Adjust the Earpiece

The SoftHold earpiece was designed to comfortably fit around the left or right ear. You may change the position of the earpiece simply by flipping the earpiece and snapping it into place as described below.

Right Ear

Left Ear

## Before you Begin

### Changing the Ear Plugs

The Headset includes three interchangeable earplugs that are designed to fit common ear types. Select the earplug that fits the most comfortably for your ear type and slide into place.

## Before you Begin

### Connecting the Audio Adapter to your Phone

Plug the Audio Adapter's connector into the universal 2.5mm headset jack on your phone. The location of the phone's headset jack will vary for different models. Use the included adhesive strip to attach the Adapter to the back of your phone or use the included belt clip.

**Note:** Some phones (such as Nokia or Samsung models) require an Adapter (sold separately by Belkin) to convert to a standard 2.5mm headset jack. Please visit us at [belkin.com](http://belkin.com) or refer to the hands-free connector chart on page 3 of this User Manual for information regarding 2.5mm adapters.

You are now ready to begin pairing your Headset to your Audio Adapter.

## Pairing to Phones NOT Enabled with *Bluetooth* Technology

The Headset and the Audio Adapter ship unpaired. You will need to pair the Audio Adapter with the Headset when you first receive the product or in the rare case that the units become unpaired.

### Pairing the Headset with the Audio Adapter:

1. Ensure that the Headset and the Audio Adapter are both off.
2. Press and hold the talk button on the Headset until you see the red and blue lights flashing, and then release.
3. Without delay, press and hold the Pairing button on the Audio Adapter for two seconds then release. The red and blue LEDs will light.

## Pairing to Phones NOT Enabled with *Bluetooth* Technology

---

4. Wait eight seconds, then press and hold the Pairing button for two seconds. The red and blue LEDs will begin to flash. The Headset and Audio Adapter will pair with each other.
5. Once pairing is complete, lights on both the Headset and Audio Adapter will begin flashing steadily blue.

Your Headset and Audio Adapter are now paired and ready to use. Turn to page 29 for instructions on using your wireless Headset.

## Pairing to Popular *Bluetooth* Technology-Enabled Phones

---

You will not need to repeat this process again in the future since your Headset and Audio Adapter are now paired.

For specific instructions to pair your phone, find your model on the following pages or refer to your mobile telephone user guide.

**Note:** For security purposes, the Headset will remain in pairing mode for 60 seconds. If the pairing process is not completed within 60 seconds, you will have to repeat the entire pairing procedure.

### Pairing Process for Nokia 6310 and 6310i

1. Ensure that your Headset is turned off.
2. Press and hold down the talk button on your headset. After approximately eight seconds, the

## Pairing to Popular *Bluetooth* Technology-Enabled Phones

---

blue light will flash five times, indicating the Headset is powered on. Do not release the button until you see an alternating blue and red light. This indicates the Headset is in pairing mode.

3. On your phone, select "Menu" and then go to "Bluetooth".
4. Make sure your *Bluetooth* capability is turned ON.
5. Scroll down to "Search for Audio Accessories".
6. Your phone will find the Belkin Headset and list it under "Found Devices".
7. Select "Belkin Headset" to initiate the pairing.
8. Enter the passkey or pin "0000" (4 zeros). You should see the LED lights switch from flashing blue/red to flashing blue every three seconds.

## Pairing to Popular *Bluetooth* Technology-Enabled Phones

---

9. Your Headset is now ready to use.

### Pairing Process for Nokia 3650 and N-Gage

1. Ensure that your Headset is turned off.
2. Press and hold down the talk button on your headset. After approximately eight seconds, the blue light will flash five times, indicating the Headset is powered on. Do not release the button until you see an alternating blue and red light. This indicates the Headset is in pairing mode.
3. On your phone, select "Menu" and then go to the "Tools" folder.
4. Select "Bluetooth".
5. Make sure your *Bluetooth* capability is turned ON.
6. Scroll to the "Paired Devices" tab and select "Options".

## Pairing to Popular *Bluetooth* Technology-Enabled Phones

---

7. Under "Options" select "New Paired Devices".
8. Your phone will search and find the "Belkin Headset".
9. Select "Belkin Headset" to initiate the pairing.
10. Enter the passkey or pin "0000" (four zeros). You should see the LED lights switch from flashing blue/red to flashing blue every three seconds.
11. Exit the Menu.
12. On your Headset, initiate a connection to your mobile phone by pushing the talk button once. After a few seconds, you will be asked on your mobile phone to accept a connection from the *Bluetooth* Headset.
13. Your Headset is now ready to use.

## Pairing to Popular *Bluetooth* Technology-Enabled Phones

---

### Pairing Process for Sony Ericsson T68i

1. Ensure that your Headset is turned off.
2. Press and hold down the talk button on your headset. After approximately eight seconds, the blue light will flash five times, indicating the Headset is powered on. Do not release the button until you see an alternating blue and red light. This indicates the Headset is in pairing mode.
3. Go to the Menu screen for your T68i.
4. Select the "Connect" icon, then select "*Bluetooth*".
5. Go to "Paired Devices" and "Add a Device".
6. Select "Phone Initiates".
7. Select "Hands-Free" (make sure your Headset is flashing blue/red).
8. Your phone will find the Belkin Headset and list it under "Found Devices".

## Pairing to Popular *Bluetooth* Technology-Enabled Phones

---

9. Select "Belkin Headset" to initiate the pairing.
10. Enter the passkey or pin "0000" (four zeros). You should see the LED lights switch from flashing blue/red to flashing blue every three seconds.
11. Your Headset is now ready to use.

### Pairing Process for Sony Ericsson T610, T616, T618

1. Ensure that your Headset is turned off.
2. Press and hold down the talk button on your headset. After approximately eight seconds, the blue light will flash five times, indicating the Headset is powered on. Do not release the button until you see an alternating blue and red light. This indicates the Headset is in pairing mode.
3. Go to the Menu screen for your T610 series.
4. Select the "Connect" icon, then select "*Bluetooth*".

## Pairing to Popular *Bluetooth* Technology-Enabled Phones

---

5. Select "Hands-free Devices".
6. Select "My Hands-free" and "Add a new hands-free device".
7. Your phone will find the "Belkin Headset" and list it under "Found Devices".
8. Select Belkin Headset to initiate the pairing.
9. Enter the passkey or pin "0000" (four zeros). You should see the LED lights switch from flashing blue/red to flashing blue every three seconds.
10. Your Headset is now ready to use.

## Using Your Headset

---

### Switching the Headset On and Off

To turn your Headset on, remove the Headset from the desktop charger, then press and hold the talk button until the LED indicator flashes blue five times. The LED indicator will flash blue every three seconds while the Headset is on.

To turn your Headset off, press and hold the talk button until the LED indicator flashes red five times.

### Switching the Audio Adapter On and Off

To turn your Audio Adapter on, press and hold the Pairing button for two seconds. The red and blue LEDs will light. After eight seconds, the red LED will go off and the blue LED will begin to flash every eight seconds.

To turn your Audio Adapter off, press and hold the Pairing button for two seconds. The red and blue LEDs will light.

## Using Your Headset

---

Continue to hold the Pairing button for twelve seconds. The LEDs will go off.

### Fitting the Headset

Decide which side of your head you will wear the Headset on, and use your hand on that side to slide the ear hook gently over and around your ear in a circular motion. Adjust the ear hook to your ear by molding it around the contour of your ear.

### Answering a Call

**Non-Bluetooth phones:**

To answer a call, use your mobile phone.

**Bluetooth phones:**

To answer a call, wait until your Headset rings, then press

## Using Your Headset

---

the talk button once to answer.

### Ending a Call

**Non-Bluetooth phones:**

To end a call, use your mobile phone.

**Bluetooth phones:**

To end a call, press the talk button at any time during a phone call.

### Making a Call

**Non-Bluetooth and Bluetooth phones:**

To make a call, dial using your mobile phone.

## Using Your Headset

---

### Voice Dialing

**Non-Bluetooth and Bluetooth phones:**

If your mobile phone allows voice dialing, push the talk button to initiate it through your Headset.

### Volume Control

**Right-ear users:**

**Non-Bluetooth phones:**

To adjust volume, use your mobile phone.

## Using Your Headset

---

### Bluetooth phones:

To increase the volume on the Headset, push the toggle button upward.

To decrease the volume on the Headset, push the toggle button downward.

### Left-ear users:

### Non-Bluetooth phones:

To adjust volume, use your mobile phone.

### Bluetooth phones:

To increase the volume on the Headset, push the toggle button downward.

To decrease the volume on the Headset, push the toggle button upward.

## FAQs

---

### How far away can I use my headset from my phone?

Ten meters (30 feet) depending on the environment and obstructions. Keep the Headset within six meters (18 feet) of the Audio Adapter or *Bluetooth* technology-enabled phone for optimal performance.

### What Bluetooth Profiles does the *Bluetooth* Headset support?

The Headset supports Headset and Hands-Free Profiles that are compliant to *Bluetooth* version 1.1 specification.

## FAQs

---

### **I hear crackling noise along with the conversation. Is there something interfering with my Headset?**

Other wireless equipment operating in the same frequency band (cordless phones, wireless networking products, appliances) may cause interference with your conversation. To prevent interference, keep the Headset away from close proximity to such devices.

Distance between the Headset and the *Bluetooth* phone may also increase the susceptibility to interference.

### **Can I use my Headset in the rain?**

The Belkin Headset is not water-resistant. Please keep the Headset away from water at all times.

## FAQs

---

### **Is the battery replaceable?**

The included battery is built into the Headset and is not replaceable to optimize for maximum comfort and minimal weight.

### **My Headset is not working.**

Make sure that the Headset and the phone or Audio Adapter are powered on and are paired.

### **Will the Headset work with my PC or PDA?**

The Headset will work with *Bluetooth* technology-enabled devices, which are *Bluetooth* 1.1-compliant and support the Headset or Hands-Free profile. Check with your device's manufacturer for profile support.

## Information

We, Belkin Corporation, of 501 West Walnut Street, Compton, CA 90220, declare under our sole responsibility that the products,

F8T060xHDST, F8T060xDNGL, and F8T060xCHG2

to which this declaration relates, comply with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## Modifications

The FCC requires the user to be notified that any changes or modifications made to this device that are not expressly approved by the manufacturer may void the user's authority to operate the equipment.

## Information

### Canada-Industry Canada (IC)

The wireless radio of this device complies with RSS 139 & RSS 210 Industry Canada. This Class B digital complies with Canadian ICES-003.

### European Community Notice

Hereby, Belkin Corporation declares that this *Bluetooth Hands-Free Headset* is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

## Information

---

Products bearing the CE marking comply with the R&TTE Directive (1999/5/EC), EMC Directive (89/336/EEC), and the Low Voltage Directive (73/23/EEC) issued by the commission of the European Community. Compliance with these directives implies conformity to the following European Norms (in parentheses are the equivalent international standards and regulations):

- EN 60950 (IEC60950) – Product Safety
- ETS 300 328 – Technical requirements for radio equipment
- EN 301 489-17 – General EMC requirements for radio equipment

This product may be used in all EU and EFTA countries.

### Wireless Notice

In some situations or environments, the use of wireless devices may be restricted. Such restrictions may apply aboard airplanes, in hospitals, near explosives, in hazardous locations, etc. If you are uncertain of the policy that applies to the use of this device, please ask for authorization to use it prior to turning it on.

## Regulatory Notices

To identify this product, refer to the part or model number on the product label.

For customer support and for regulatory issues, contact Belkin at **1-800-2BELKIN**.

## Federal Communications Commission Notices

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in

accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
