Subject: Extended Frequency Range Attestation – FCC ID: K95KNGM400HP

Applicant: BK Technologies Inc

To the Commission:

BK Technologies Inc. would like to have the extended frequency appear on the face of the equipment Grant of Certificate as it presently appears on the FCC Grant of Certificate for a Part 90 certification. This frequency range 380 – 470 MHz is regarded as usual and customary by Public Safety Users including Police, Fire, Emergency Services and their various departments.

To aid equipment authorization in other countries that accept the United States FCC Grant for Certification, BK Technologies Inc. is requesting that the FCC list the frequencies 380 - 470 MHz for Rule Part 90 on the Grant.

Also, for the FCC's Rule Parts 90 applications, this radio is used in systems by Federal and Public Safety agencies including Police, Fire, and Emergency Medical Services, etc. as indicated in the table on the next page. Equipment programming is the responsibility of Authorized Service Personnel. It is important to note that the radio complies with 47 CFR Part 90.203(e); in which, the operator cannot directly program the transmit frequencies using the normally accessible external controls.

Per "FCC-OET KDB Publication 634817" guidance, the grantee, BK Technologies Inc., acknowledges that device operations on unauthorized frequencies are a violation of FCC Rules.

Notes Emission Designators: Rule Part 90: 11K0F3E, 16K0F3E, 8K10F1E, 8K10F1D, 8K10F1W.

Frequency Range	Part 90	Federal Agencies/Other Countries	Grant Note
380 – 406.0875 MHz		X	EF
406.1 – 454 MHz	X		EF
454.0125 – 455.9875 MHz		X	EF
456-462.5375 MHz	X		EF
462.55 – 462.725 MHz		X	EF
462.7375-467.5375 MHz	X		EF
467.55 – 467.725 MHz		X	EF
467.7375-470 MHz	X	X	EF
			EF

Sincerely,

Lorenzo Cruger Jr.
