

Attachment 3: EUT Detailed Photographs

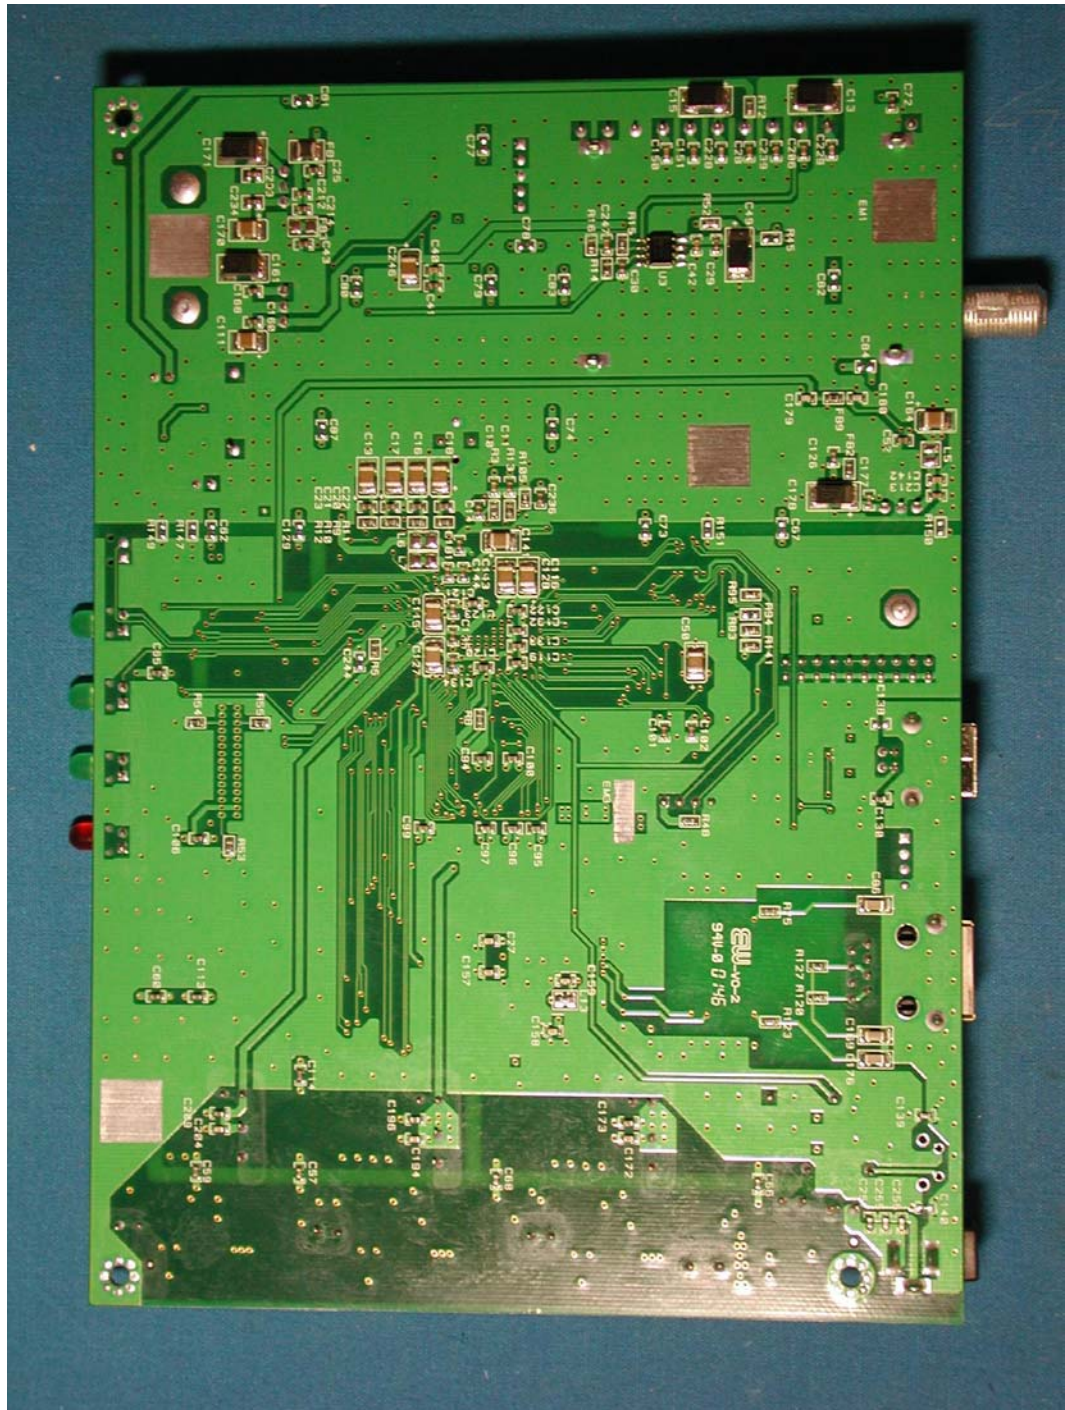

(1) EUT photo

The image shows the reverse side of a green PCB, densely packed with electronic components. Key features include:

- Connectors:** A large silver SMA connector is on the left. Along the bottom edge, there are several BNC connectors (one red, others green) and a multi-pin D-sub connector.
- ICs:** A large black IC labeled 'COMSANT C9041-185' is prominent in the center. Other ICs include 'FUNCTION FN-176S 0140' and various smaller logic and control chips.
- Passive Components:** Numerous electrolytic capacitors (some with blue and white markings), resistors, and inductors are distributed across the board.
- Shielding:** A large rectangular metal shield is mounted on the left side, likely for the oscillator or mixer section.
- Labeling:** The bottom right corner is labeled 'PCB2560' and 'VER. 3.2'.
