

D-Link CORPORATION

Federal Communications Commission

2F, No. 233-2, Pao-Chiao Rd., Hsin-Tien 231 Taipei, Taiwan, R.O.C.

June 17 2004/6/17

Dear Examiner

I am writing to avoid the possibility of an inadvertent disclosure of an inadvertent disclosure of proprietary information.

The accompanying Form 731 is being filed with the commission on our behalf by Compliance Engineering Services, Inc., a consulting and testing laboratory. Included as exhibits with the enclosed application of the theory of operation of the device.

We ask that these portions (block diagrams, schematics, antenna spec. and theory of operation) of our application be withheld from public inspection as provided under FCC section 0.459. These documents contain details of the proprietary operation of the product. These details are not readily discernible – even to technically sophisticated individuals – from our hardware and constitute trade secrets.

We request that these documents and this letter be segregated from the body of our evaluation report and withheld from public inspection.

Sincerely,

(C.J. Chang)

(Product Management)

(D-Link Corporation)
