Dear Stan:

Itronix Corporation hereby requests a Class II Permissive Change for the subject application. The original FCC ID application was approved as mobile category with 20 cm spacing requirement and MPE calculation. We seek to remove the 20 cm spacing requirement and therefore change the device category to portable with supporting SAR data.

If you have any further questions regarding this matter, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Fred Phillips".
