Re: FCC ID: KBCIX260MPIRIM902

Mr. Ward,

The Items 2 & 3 on your list of comments have been addressed with the corrections made on the attached revised report, file name "Exhibit 6 Part 15 Supplemental Test Report Rev 1".

For Item 2 the column title was corrected to uV/m.

For Item 3 corrections to reflect the correct WLAN frequencies related to this application were made. My apologies for my error due to incomplete revisions of the frequencies after a cut and paste of a table block.

Items 4 & 5 were exhibits from the original Certification filing by the OEM. Not being able to support those measurements directly Itronix has had us re-measure the data in question in accordance with the FCC's Guidance on Measurements for Direct Sequence Spread Spectrum Systems. The results submitted under the file name "Exhibit 6 Part 15.247-6db BW\_Ant Cond Spur". The measured data supports continued compliance with the Part 15.247 rules.

Thank you for your time spent reviewing this application.

Best Regards,

A handwritten signature in black ink that reads "Rod Munro". The signature is fluid and cursive, with the first name "Rod" and last name "Munro" clearly distinguishable.

Rod Munro
