

Photograph B-1 - AC Powerline Conducted Emission Configuration

Photograph C-1 - Loop Antenna (10kHz - 30MHz)

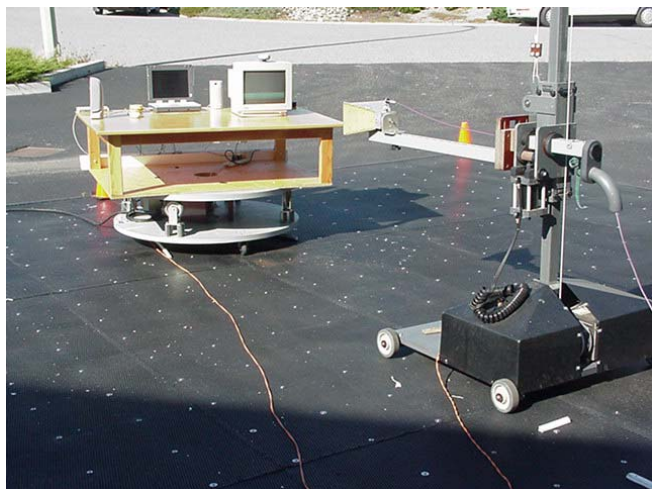

Photograph C-3 - 3115 Horn Antenna

Photograph C-2 - Bilog Antenna (30MHz - 1 GHz)

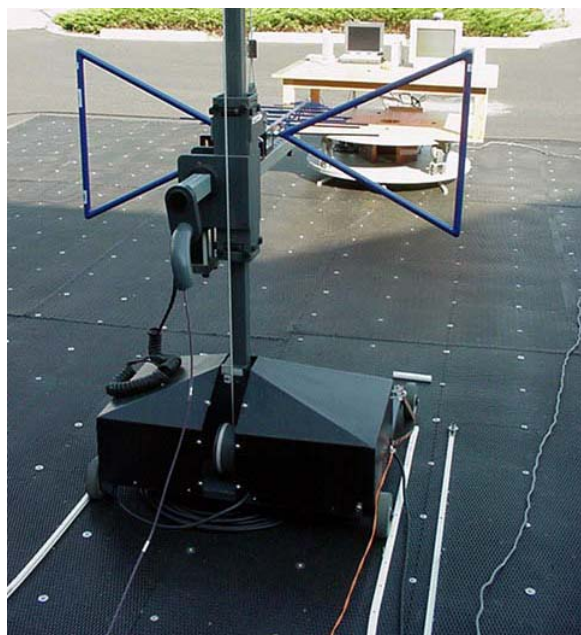

Photograph C-4 - 3160-09 Horn Antenna

Measurements were made of the bands that may contain inter-modulation products with both the Bluetooth and WLAN radios transmitting. Measurements were made for each combination of channels with each radio transmission modulated and with power settings equivalent to those described in the referenced single-transmit test reports.

Photograph D-1 - Horizontal Polarization
(30MHz - 1 GHz)

A wooden coffee table with a lower shelf, holding a laptop, a CRT monitor, speakers, and a mouse, demonstrating its use as a mobile workstation.
