

Responses to Non-Conformities (Ref #E00-000492-1)

Item 1: Please provide an updated test report showing the correct spec limits as called out in 15.209. Since the EUT was tested at 10meters a correction factor of 60dB [$40 \log (300 / 10)$] for frequencies below 30MHz should have been used. The test report indicates a correction factor of 70dB.

Received revised test report 10/2. See test report FC00-085A.

Item 2: Please provide a brief description of the circuit functions of the device along with a statement describing how the device operates. This statement should contain a description of the ground system and antenna, if any, used with the device.

Received 10/2. See Revised Functional Description

The items indicated above must be submitted before processing can continue on the referenced application. Failure to provide the requested information within 60 days may result in application dismissal pursuant to Section 2.917(c) and forfeiture of the filing fee pursuant to Section 1.1106.

Note: Any corrections or additions to this report can only be made by a further document which meets the requirements of TCB0005 and such a document is to be labeled as a supplement to evaluation report serial number E00-000492.
