Manufacturer's Declaration

We, Paradox Security Systems Ltd. located in 780 Industrial Boulevard St.Eustache, Quebec J7R 5V3, Canada declare under our sole responsibility that the product Outdoor Wireless Siren SR130 is operated in 433.92 MHz and designed to comply and satisfy periodic operational requirements.

The siren SR130 does not allow continuous transmitting (such as voice, video and radio control).

The siren SR130 is not manually operated device. It is activated upon an intrusion, fault or any other pre-programmed initiating signal sent by the Control Panel.

SR130 sends automatic supervision messages to the control panel 3 times every hour. The interval for each supervision message is randomly selected between 17 minutes and 20 minutes by the device's software.

Since, there is no periodical behavior except supervision transmissions, there are no predetermined intervals of any kind included in device's algorithm.

Nimrod Herman
Certification Manager
