Correspondence Number: 18306

Dear Mr. Dichoso:

In response to your inquiry, I have prepared the following reply:

Item #1

Users manuals are currently in revision to add RF safety instructions to the user. They are not yet available for review, however, the following statements will be included instructing the user for correct use to ensure RF exposure compliance:

Caution 	<i>This device is intended to transmit RF energy. In accordance with FCC radio-frequency safety regulations, when operating this device with the Hip-Flip accessory, it should be used in accordance with the users instructions. Additionally, the user should take care to ensure that a minimum separation distance of 20cm is maintained from the antenna to nearby persons. Use of this device in a manner not consistent with these instructions can increase the risk of RF exposure.</i>
---	--

Item #2

Noted. Thank you.

The proposed grant conditions are acceptable.

We trust we have satisfactorily addressed the issues you raised in this correspondence.

Sincerely,

R. Sam Wismer
RF Approvals Engineer
