400-2765/1

You're done! Fasten your collar or harness on your pet and start tracking!

Do not place your collar strap in between the tracker and the metal clip.

Important: Attaching the tracker incorrectly may cause it to fall off the strap.

Charging cable

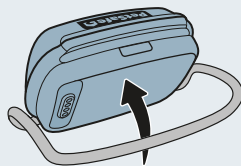

Scan to watch our attachment video

Your product comes with a one-year limited warranty.

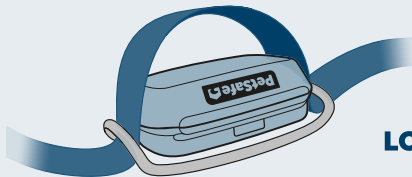

How to attach

You will need your dog's favorite collar or harness

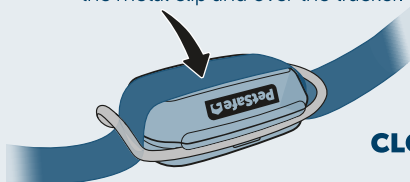

OPEN

- 1** Open the metal clip by holding the clip and pressing firmly on the back side of the tracker.

LOOP

- 2** Insert a loop of your collar strap through the metal clip and over the tracker.

CLOSE

- 3** Press the tracker down into the metal clip to close. You will hear a click.

Let us help!

Welcome!

PetSafe® brand is devoted to making sure you and your pet have what you need to live your best life together. Before getting started, please take a moment to read through the important safety information. If you have any questions, please don't hesitate to contact us.

Hereinafter Radio Systems Corporation and any other affiliate or Brand of Radio Systems Corporation may be referred to collectively as “We” or “Us”.

Important Recycling Advice

Please respect the Waste Electrical and Electronic Equipment regulations in your country. This equipment must be recycled because it contains a Lithium-ion rechargeable battery. At the end of the product life, do not place it in the normal municipal waste system. Please check the regulations in your area or return it to where it was purchased so that it can be placed in our recycling system.

Important Safety Information

Explanation of Attention Words and Symbols Used in this Guide

This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

WARNING

WARNING indicates a hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION

CAUTION, used with the safety alert symbol, indicates a hazardous situation which, if not avoided, could result in minor or moderate injury.

CAUTION

CAUTION, used without the safety alert symbol, indicates a hazardous situation which, if not avoided, could result in harm to your pet.

NOTICE

NOTICE is used to address practices not related to personal injury.

All GPS Pet Trackers

WARNING

- Before using the GPS Tracker, read and follow all instructions and warnings.
- The GPS Tracker contains Lithium-Ion (Li-Ion) batteries; never incinerate, puncture, deform, short-circuit, or charge with an inappropriate charger. Fire, explosion, property damage, or bodily harm may occur if this warning is not followed.
- Dispose of all packaging material properly. Some items may be packed in plastic bags. These bags could cause suffocation. Keep away from children and pets.
- The battery should be charged in areas with temperatures ranging from 32°F to 113°F / 0°C to 45°C. Recharging the battery outside of this temperature range can cause the battery to overheat, explode or catch fire.
- Check periodically to make sure the product has not been damaged or chewed by your dog or cat. Do not use if damaged.
- Do not use the GPS Tracker with people, including children and those with limited physical, sensory or mental abilities. Use only with dogs or cats.
- This is not a medical device and should not be used as a substitute for professional veterinary-medical judgment. It is not intended to provide medical or scientific data.
- This system is not a physical barrier or containment solution. It is designed to notify pet owners when their pet exits a defined safe zone. It does not prevent pets from leaving the area, nor does it guide them back.

All GPS Pet Trackers (cont.)

- Do not rely solely on this system to monitor or protect your pet. Environmental factors, signal interference, battery life, and connectivity may affect system performance. Always supervise your pet and use additional safety measures as needed.
- This product is not suitable for aggressive or unpredictable pets. If your pet poses a risk to others or may harm itself when outside the safe zone, consult a veterinarian or certified trainer before use.

⚠ CAUTION

- The GPS Tracker is not a toy. Keep out of the reach of children.
- Notification delays may occur. Cellular coverage, app settings, and device connectivity can impact the timeliness of alerts. PetSafe Brands cannot guarantee immediate notification in all circumstances.
- Proper setup and regular maintenance are essential. Ensure the tracking device is securely attached, fully charged, and functioning properly. Periodically test the system to confirm safe zone boundaries and alert functionality.

CAUTION

- The tracker is small in size and might be too large or heavy for small or injured dogs or cats. If you are unsure whether this product is appropriate for your dog or cat, please consult your veterinarian.
- PetSafe Brands shall not be liable for any injury, property damage, or economic loss resulting from a pet leaving the safe zone. This includes, but is not limited to, incidents involving traffic, wildlife, or interactions with other animals or people.
- GPS accuracy may vary. Location data may be affected by terrain, buildings, weather, or satellite availability. Safe zone boundaries should be set with a margin of error in mind. Location tracking is subject to limitations inherent in GPS and wireless technologies. These may include signal delays, reduced accuracy, or temporary loss of connectivity in certain areas.
- This system is intended for use with domesticated pets only. It is not designed for livestock, wildlife, or animals with specialized containment needs.
- This product relies on external systems such as GPS satellites and mobile networks. As with any technology, occasional disruptions may occur due to factors beyond PetSafe Brands' control.

NOTICE

- Use only charging devices that are approved by Radio Systems Corporation. Our accessories are designed for your device to maximize battery life. Using other accessories may cause damage to your device.
- Do not allow electronics to contact liquids.
- Extreme conditions, such as high temperatures or high humidity, can damage the device or impact the device's performance.
- You should expect hundreds of recharge cycles from your battery. However, do not charge your collar every night or leave it charging for extended periods once it is fully charged.

- Overcharging can lead to overheating and reduce battery life.
- Do not disassemble or modify the device in any way. Opening the device can lead to exposure to hazardous materials and may cause injury.

Terms of Use and Limitation of Liability

1. Terms of Use

The use of this product is subject to your acceptance without modification of the terms, conditions and notices contained with this product. Use of this product implies acceptance of all such terms, conditions, and notices. If you do not wish to accept these terms, conditions, and notices, please return the product, unused, in its original packaging and at your own cost and risk to the relevant Customer Care location together with proof of purchase for a full refund.

2. Proper Use

Proper Use includes, without limitation, reviewing the entire Product Manual and any specific safety information statements. The specific temperament or size/weight of your pet may not be suitable for this product. If you are unsure whether this product is appropriate for your pet, please consult your veterinarian or certified trainer prior to use. For products used with pets where training is desired, Radio Systems Corporation d/b/a PetSafe Brands recommends that these training products are not used if your pet is aggressive and accepts no liability for determining suitability in individual cases.

3. No Unlawful or Prohibited Use

This product is designed for use with pets only. This product is not intended to harm, injure or provoke. Using this product in a way that is not intended could result in violation of Federal, State or local laws.

4. Modification of Terms and Conditions

PetSafe Brands reserves the right to change the terms, conditions and notices governing this product from time to time. If such changes have been notified to you prior to your use of this product, they shall be binding on you as if incorporated herein.

5. Limitation of Liability (Applies to North America, South America, Australia and New Zealand Only)

To the extent permitted by applicable law, PetSafe Brands and its associated companies shall not be liable for any indirect, punitive, incidental, special, or consequential damages arising out of or in connection with the use or performance of this product. This limitation does not apply to damages caused by intentional misconduct or gross negligence. In jurisdictions where limitations of liability are not allowed, this limitation may not apply to you. The Purchaser assumes all risks and liabilities from the use of this product to the fullest extent permissible by law.

Compliance

FCC: USA

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions. (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

Compliance

FCC: USA (cont.)

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a specific installation. If interference does occur to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult customer care, the dealer, or an experienced radio/TV technician for help. CAUTION:

Modification or changes to this equipment not expressly approved by Radio Systems Corporation may void the user's authority to operate the equipment.

RF warning for Mobile device: This equipment complies with FCC Radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body.

IC

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The device has been evaluated to meet general RF exposure requirements. To maintain compliance with RSS-102 — Radio Frequency (RF) Exposure guidelines, this equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux normes CNR exemptes de licence d'Innovation, Sciences et Développement économique Canada. Son fonctionnement est assujéti aux deux conditions suivantes :

- (1) Cet appareil ne doit pas causer d'interférences.
- (2) Cet appareil doit accepter toute interférence, y compris celles qui peuvent entraîner un fonctionnement indésirable de l'appareil.

le dispositif de a été évalué à répondre général rf exposition exigence.pour maintenir la conformité avec les directives d'exposition du RSS-102-Radio Fréquence (RF). ce matériel doit être installé et exploité à une distance minimale de 20 cm entre le radiateur et votre corps.
