Federal Communications Commission
2435 Oakland Mills Road
Columbia, MD 21046

January 22, 1999

Gentlemen:

This is your letter of authorization to accept our limited appointment of Thomas N. Cokenias as Agent for P-Com, Inc., to sign applications before the Commission and to make representations to you concerning certain products on our behalf. Thomas N. Cokenias is to receive and exchange data between our company and the Commission. This request is made pursuant to paragraph 2.911 of FCC Rules, CFR 47 and is limited to the following P-Com product with a proposed FCC identifier: KNDM2. This authorization expires on January 22, 2000.

The accompanying data is also being filed on our behalf by Thomas N. Cokenias. Included as exhibits with the enclosed application are: block diagrams, theory of operation and schematic diagrams of the cited unit. It is our intention to provide the Commission with a full disclosure of our process so that its merits can be evaluated fully. Indeed, we are pleased to provide any further information that the Commission might wish to see. It is not our intention, however, to make our proprietary process a matter of public record.

In view of the fact that the diagrams and associated theory of operation disclose information confidential to P-Com, we ask that these portions (block diagram, schematic diagram, and theory of operation) of our application be withheld from public inspection as provided under FCC §0.459. These details are not readily discernible - even to technically sophisticated individuals - from our hardware and constitute trade secrets. We would also like to extend this to the currently submitted documents. We request that these documents and this letter be segregated from the body of our evaluation report and withheld from public inspection. Thank you for your attention. Please let F.W. Miller (408-874-6601) know if the Commission disagrees with our position or requires further information regarding this application.

Furthermore, I hereby certify on behalf of P-Com, Inc., 3175 South Winchester Boulevard, Campbell, CA 95008, USA, ("Applicant"), that neither the Applicant nor any party to the application (officers, directors and 5% shareholders) is subject to a denial of Federal benefits that includes FCC benefits pursuant to section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. 853a.

Sincerely,

Ken Hearn
Senior Vice President
Quality Assurance
P-Com, Inc.
