

FCC

"This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation."

Industry Canada

IC ID#: XXXXXX-6TX (XXXXXX will be replaced with the company number issued by Canada)
"The term "IC:" before the radio certification number only signifies that Industry Canada technical specifications were met.

Disclaimer Statement

Caution: changes or modifications not expressly approved by SPAL USA will void the user's authority to operate the equipment.

Limited Warranty Statement

SPAL USA WARRANTY STATEMENT

SPAL USA warrants this product to be free from defects in material and workmanship for a period of one (1) year from the date of sale to the original purchaser, and not more than two (2) years from the date of manufacture. SPAL USA will repair this product free of charge if, in the judgment of SPAL USA, it has been proven defective within the warranty period. The product should be returned, at the customer expense, to the location of original purchase. This warranty does not cover any expenses incurred in the removal and/or reinstallation of the product. This warranty does not apply to any product damaged by improper installation, accidental misuse, abuse, improper line voltage, fire, flood, lightning, or other acts of God, or a product altered or repaired by anyone other than SPAL USA. This warranty is in lieu of other warranties, expressed or implied, including any implied warranty of merchantability. No person is authorized to assume for SPAL USA any other liability concerning the sale of this product.

- To activate channel #3: Press the button labeled III
- To activate channel #4: Press the button labeled IV
- To activate channel #5: Press the button labeled V
- To activate channel #6: Press the button labeled VI

Battery Replacement

To replace the battery in the transmitter, you will need a small flat screwdriver. Insert the tip of the screwdriver into the hole that is used to attach to your keychain and twist. Inside the case you will find a PCB and battery. Make sure to avoid contaminating the circuit board with liquids or oils because this could harm the transmitter. Replacement batteries can be purchased from SPAL USA or your local battery retailer.
