

Block Diagram : Key 5WK4 9123

Block diagram of the transmitter

Technical Data:

Carrier frequency	315.0 MHz $\pm$ 0.05%
Output power/field strength:	< 10 mW
Type of modulation:	FSK
Method of frequency generation:	PLL
Number of channels:	1
Power supply:	akku (VL 2020)
Type of battery:	lithium
Transmission range:	< 10 m
Oscillator frequencies generated or used in the device:	Resonator 9.844MHz
