

Label and Label Location

1. Product pictures and Labelling on the product

1.1 Labelling on the product:

Serial number, platform, performance level and model name: on the serial number plate

Serial number: 2 lines, e.g. YYWWIABCD

The serial number contains **Manufacturing Date** within the number:

Y	Y	W	W	I	A	B	C	D
---	---	---	---	---	---	---	---	---

YY = year (Example: 18 for 2018)

WW = number of the current production week (example: 35 for the week 35)

I = Manufacturing Site ID

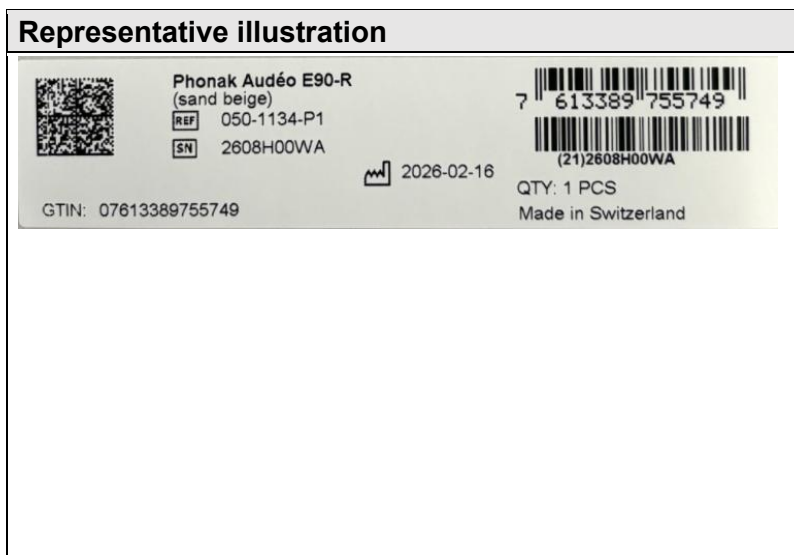

ABCD = incremental serial number

**The hearing aids shown in the pictures are red marked (right hearing aid). Left hearing aid has a blue mark instead.*

Label and Label Location

1. Slim package (017-1913)
2. Sleeve (017-1384)
3. Left/right markings
4. FCC ID stickers (two stickers: one placed on the slim package and the second inside the slim package)
5. User Instructional Brochure
6. Product stickers (two stickers: one placed on the slim package and the second inside the slim package)
7. FDA sticker (see chapter 2.4, placed on the slim package)
8. Transport condition sticker (inside the slim package)

Label and Label Location

2.3 Outer cardboard box:

The products are manufactured, packed and shipped individually in labelled cardboard cartons, refer to photos below. The same cardboard box model is used for all hearing aid products. However, the labelling sticker on the box is unique for the products. The labelling stickers with complete product model name, color, article number, serial number and bar code can be seen in the representative pictures below.
