Change description for DV500 with 12.5kHz channel spacing

Dear Ruby,

we currently have extended our pagers for narrowband applications.

DV500 has been changed to be used also for 10/12.5kHz channel spacing instead of 20/25kHz only. For this purpose one resistor has been changed:

10/12.5 kHz:	R2	0033611	R SMD 100K CHIP-R 0603 +/-1%
20/25 kHz:	R2	0033581	R SMD 56K CHIP-R 0603 +/-1%

Parts list including new components have been sent to you before.

If you need more information, please don't hesitate to contact us.

Yours Sincerely

SWISSPHONE Telecom AG

Urs Aebersold
Product Manager
