

Declaration

We, Siemens AG – ICM CP, manufacture the WDCT Portable Parts

“Gigaset 4000” USA Version

“Gigaset 4200” USA Version

which are approved in USA (approval number: **LE82-1408**).

In addition to above we are going to manufacture the WDCT Portable Part

“Gigaset 8800” USA Version

which is similar to the **“Gigaset 4000” and “Gigaset 4200” USA Version.**

We, Siemens AG - ICM CP, declare that:

- These three versions are manufactured by us.
- These three versions have the same radio module and fulfil the FCC Part 15 requirements.
- The radio modules of these three versions were modified and the conformity tested with Gigaset 8800.

L 861 22nH >> 6.8nH

C 860 1.8pF >> 1.2pF

C 806 3.3pF >> 2.7pF

The modification of these three components prevent the oscillation of the final amplifier on the radio module and have no influence on the conformity according to FCC Part 15 (see test report 5-3724-B/01 by CETECOM).
