Please address the following EMC and RF safety questions.

EMC questions...

1) The EUT will be restricted to indoor operation since it operates in the 5.15 5.25 GHz band. Based on the technical description, user's manual, and any advertising literature provided, how will you ensure that the use of the device will be restricted to indoor use per Section 15.15.407(e)?

Provide the user's manual.
Verify that technical descriptions and advertising will be for indoor use only.

Response: Draft version of user's manual uploaded today. This statement is intended to confirm that technical descriptions and advertising will be for indoor use only.

RF safety questions..

RT:

1) The device is a portable device. Please evaluate RF safety compliance with respect to portable exposure conditions.

Response: Please refer to "Test Report for Evaluation of MPE from Access Point Model AP1200", uploaded today.

Exposure statements in the manual can be found on page 90 of the Adobe Acrobat file uploaded.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal pursuant to Section 2.917 (c) and forfeiture of the filing fee pursuant to section 1.1108.

DO NOT reply to this e-mail by using the Reply button. In order for your response to be processed expeditiously, you must upload your response via the Internet at www.fcc.gov, Electronic Filing, OET Equipment Authorization Electronic Filing. If the response is submitted through Add Attachments, in order to expedite processing, a message which informs the processing staff that a new exhibit has been submitted must also be submitted via Submit Correspondence. Also, please note that partial responses increase processing time and should not be submitted.
