Columbia, MD 21046

Subject: Attestation Statements per 987594 D01 U-NII 6GHz General Requirements v03r01

Dear Sir/Madam,

We, [Cisco Systems, Inc.](#), attest that this device under [FCC ID: LDKIW9165E](#) complies with device protocol requirements and operational restrictions for Indoor Client 6XD.

1. Device Protocol Attestation Statement:
 - a. This device will only associate and connect with a low-power indoor Access Point, subordinate device, or standard access point and never directly link to any other client devices.
 - b. This device will always initiate transmission under the control of a low-power indoor AP or subordinate except for brief transmissions before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that they will not continually repeat the request if they do not receive a response from an AP.
 - c. The transmissions will be lower or equal to the power advertised by the indoor low-power access point or subordinate and never above the maximum output power allowed by the FCC grant for equipment class 6XD
2. Statement Acknowledging device restrictions:
 - a) This device is prohibited for control of or communications with unmanned aircraft systems, including drones

Sincerely Yours,

A handwritten signature in black ink that reads "Adam Walb".
