Signed statement as required by Section 2.975 (a)(6)

The BCM V6 Body Control Module has been tested in accordance with the requirements contained in the appropriate Commission regulation. To the best of my knowledge, these tests were performed using measurement procedures consistent with industry or Commission standards and demonstrate that the equipment complies with the appropriate standards. Each unit manufactured, imported or marketed, as defined in the Commission's regulations, will conform to the sample tested within the variations that can be expected due to quantity production and testing on a statistical basis. I further certify that the necessary measurements were made by the independent EMC testing laboratory Radiometrics Midwest Corporation, 12 East Devonwood Avenue in Romeoville, Illinois 60446.
