RE: FCC ID: LJPRH-13

Attention: Kare Oksanen

I have a few comments on this Application.

- 1 The following accessories are listed in the manual – LPS-1 loop set, HAD-8 TTY Adapter, HDC-9P Headset, ACP-8U rapid travel charger. Please explain why these accessories were not tested during SAR evaluation.
- 2 No testing appears to have been done using the external antenna port. For example, what antenna is used and what is the ERP produced using this external antenna port? Please explain.
