Ref: Application for Grant of FCC ID LJS41526-100

Ladies and Gentlemen:

Attached is a submittal package for equipment to be considered for Certification under the above referenced FCC ID number for a peripheral computing device; specifically a ruggedized printer.

This submittal consists of the following integral parts:

- a) Complete test report with data and photographs of EUT
- b) FCC Form 731, 3 pages
- c) FCC Remittance Advice form
- d) Power of Attorney for PDE Labs to act on clients behalf
- e) Equipment user information pages (x2)
- f) Schematic diagrams (x6)
- g) FCC User notice information
- h) FCC Label sample
- i) Check payable to FCC for \$940.00

We had previously attempted to E-File this application but failed due to lack of scanning capabilities at the time. We have since met that requirement and are incorporating a completely new computer system, which should mean that this filing would represent the last remaining hard-copy filing to the FCC.

If there is anything I can do to assist in speeding this application along, please call anytime.

Sincerely,

A handwritten signature in black ink, appearing to read "David Feher", written over a circular stamp or seal.

PDE Laboratories, Inc.

David Feher,
General Manager
