

Mr. Fujimoto:

In order for processing of this application (FCC ID: LM8-K660066001) to continue, the following issue(s) will have to be addressed:

- 1) The FCC label for a device in which this module is installed must state "contains FCC module FCC ID: LM8-K660066001" or something to that affect. Simple placing the FCC ID on the host device with the FCC compliance statements is not sufficient. Please provide a revised sample label.
- 2) Since the application is not signed by the applicant, please submit an agent authorization letter.
- 3) The test setup photos submitted are not clear enough to show the EUT configuration. Please submit clearer photos. In the case that the EUT is so small, submit a closeup photo of each test setup.
- 4) Section 6.2 of the test report states that the EUT is battery powered, which contradicts other portions of the application. Please clarify how the equipment was powered during the test, and how it will be powered in its final configuration(s).
- 5) The user's manual references the rules for a Class B Digital Device, and states that it is certified to comply with the limits of a Class B Computing Device. Neither of these references are appropriate for this device. Please submit a revised manual.
- 6) The justifications for modular approval exhibit references labeling instructions which will be provided to the OEM integrator. Please provide these instructions.
- 7) According to the test report, the equipment was modified in order to meet the specifications. Please provide a signed letter from the applicant, attesting that these modifications will be implemented into all production models.
- 8) On the data sheets in the test report, it is not clear whether the readings for the fundamental and harmonics are average readings or peak readings. Please indicate whether they are peak readings or average readings. If they are average readings, please submit the test procedure used for making said measurements.

The item(s) indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Please upload responses and/or exhibits to the electronic filing website. Your correspondence number is LM8-K660066001-1.

Best regards,

Scott McCutchan
