

**Larus**

electronics for telecommunications

To whom it may concern:

March, 2000

Larus requests that the schematics, numbers 001-01794-000, 001-02122-000, 001-02069-000, 001-02070-000, and 001-02068-000, included in our filing for the Model 9000, FCC ID LYA-9000, Spread Spectrum Radio System be held in confidence and not disclosed per the rules outlined in CRF 47 0.47 regarding trade secrets.

Larus has discovered a means of providing four times as much digital bandwidth while maintaining the required "spreading gain" or jammer margin that has resulted in the filing for one patent at the present time. There are other inventions that Larus reserves the right to pursue patent applications for or to keep as trade secrets.
