

Re: Certification for Siemens Immobilizer
Models: JA, LH, WJ
FCC ID: M3N-IMMOBILISER2
CANADA:

FCC/IC ID LABEL

The below shown label (polyester, opaque white with black print) will be permanently attached on the outside of the plastic case of the device. See photo in this Exhibit for location.

Full size

Because the device is too small to accomodate a label with the Compliance Statement, the following statement will be contained in the (car) Owner's Manual:

This device complies with Part 15 of the FCC Rules and with RSS-210 of Industry Canada.
Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

See also Manual Statement in Exhibit 8.
