

INTRODUCTION

Congratulations on purchasing the BROADCASTVISION™ Fitness Cinema wireless entertainment system. Fitness Cinema allows listeners to enjoy up to 32 television and music (CD, cassette, satellite music) selections at a touch of a button. Listeners plug Fitness Cinema headphones or any portable lightweight headset to the Fitness Cinema wireless receiver attached to the cardio equipment and enjoy crystal clear hi-fidelity sound.

Fitness Cinema BV900 transmitter will transmit an average of 35,000 square feet and can be easily attached to any TV mount or can sit on top of any music component.

The Fitness Cinema cardio receivers attach easily to exercise equipment with the supplied wire ties. Many leading brands of cardio equipment are Fitness Cinema ready or it can be plugged into a standard 110AC.
