Limited Module Approval Request Letter

Subject: Limited Module Approval

Date: 2005/9/27

FCC ID: M4Y-0XA622H

Dear Reviewer,

We, Sporton International Inc., are authorized by Z-Com, Inc. to have their state-of-the-art 802.11a mini-PCI Module approved under limited module approval authorization. The application of this module is specified to Mobile host equipment using dipole antenna filed in this project. The requirements regulated in Public Notice DA00-1407 have been fulfilled and clearly explained below.

1. The requirement of RF shielding: The shielding of the radio portion can be demonstrated in exhibition External Photo.
2. The requirement of buffered inputs: Buffered data inputs stage has been integrated in chip Atheros AR5213.
3. The requirement of power supply regulation: The part number of the power regulator is LTC3406ES5.
4. The requirements of section 15.203 and 15.204(C): The requirements of antenna connector and spurious emission have been fulfilled. Please reference the exhibition Test Report.
5. The requirement of stand-alone test configuration: Please reference exhibition Test Configuration Photo for the stand-alone test configuration.
6. The requirement of labeling: The labeling rule of the end product for showing an certified radio module was integrated has been stated in the users manual of this module. Please also see the exhibition Label Sample.
7. The requirement of compliance on specific rule or operating requirements: The required FCC rule has been fulfilled and all the instructions for maintaining compliance has been clearly stated in the Users Manual.
8. The requirement of RF exposure: Please refer exhibition RF Exposure for the compliance of RF exposure rule.

Please do not hesitate to contact me for any questions of this request letter. Thank you.
