

ADVANTECH CO., LTD

Request for Limited Modular Transmitter Approval

June 3, 2020

FCC ID : M82-WISE2410

Applicant: ADVANTECH CO., LTD

This transmitter, model: WISE-2410B is designed by us.

It complies with the modular transmitters basic requirements (Item 1 to 8) in FCC Part 15 Subpart C Section 15.212 as indicated below:

Modular Approval Checklist:

Modular approval requirement	Yes	No
(1) Have its own RF shielding.	☐	☒ No shield. Refer to the photo file.
(2) Have buffered modulation/data inputs.	☒ MCU built-in in the host. Refer to Appendix User manual.	☐
(3) Have its own power supply regulation.	☒ The component is U8 in the host. Refer Appendix "WISE-2410 schematic" on page 6.	☐
(4) Comply with the antenna and transmission system requirements of § 15.203, 15.204(b) and 15.204(c).	☒ Refer to the photo file.	☐
(5) Tested in a stand-alone configuration. Unless the transmitter module will be battery powered, it must comply with the AC line conducted requirements found in FCC § 15.207. AC or DC power lines and data input/output lines connected to the module must not contain ferrites, unless they will be marketed with the module. The length of these lines shall be the length typical of actual use or, if that length is unknown, at least 10 centimeters to insure that there is no coupling between the case of the module and supporting equipment. Any accessories, peripherals, or support equipment connected to the module during testing shall be unmodified and commercially available.	☐	☒ The modular transmitter is not tested in a stand-alone configuration. This is an LMA submission with the specific hosts. Host: Product Name: LoRaWAN Smart Condition Monitoring Sensor Model No.: WISE-2410
(6) Equipped with either a permanently affixed label or must be capable of electronically displaying its FCC ID. If the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	☒ Refer to the label drawing. 	☐
(7) Comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	☒ Refer to Appendix User manual.	☐
(8) Comply with any applicable RF exposure requirements in its final configuration: The modular transmitter complies with FCC radiation exposure requirement.	☒ Refer to Appendix User manual.	☐
