TO WHOMSOEVER IT MAY CONCERN

This is to declare that the Physical Access Terminals manufactured by SCM Microsystems, Inc. with model names PAT1111 and PAT1121 use identical electronics. PAT1111 is a contact less card reader while PAT1121 is a contact less card reader with pin pad. The difference is only in the face plate of the enclosure between these two models. PAT1111 has a blank face plate while PAT1121 has a face plate that has the numeric pin pad.

Sincerely,

Jean-Christophe Raynon
Product Manager
SCM Microsystems, Inc.
