To Whom It May Concern

Subject: Authority to Act as an Agent

Applicant: Digi International Inc
FCC ID: MCQ-XB3M2

Dear Sir/Madam:

This is to request a Class II Permissive change for the above FCC ID.

The change under this application is to add collocation with the Telit ME310G1-W1 module (FCC ID: RI7ME310G1W1). The new product is the same except the cell module is changing from ME310G1-WW to ME310G1-W1. The -W1 version does not have 2G fall-back and the output power is lower at 22dBm max. The Bluetooth section has not changed, it should have the same RF characteristics. The PCB has not changed as the cell modules are pin-to-pin compatible. There will be two version of the product, one with each cell module.

I also certify that the information provided, properly describe the device or system for which authorization is required.

Regards

A handwritten signature in black ink, appearing to read "Dan Kobylarz", written over a light blue horizontal line.
