

Notice of Authorization

Date: 02-Nov-2016

Attention: J. C. Cheng
EMC Safety Supervisor
Amtran Technology Co., Ltd.
17F, No. 268, Lien Chen Rd.
Chung Ho City, Taipei County, Taiwan

Dear Sir,

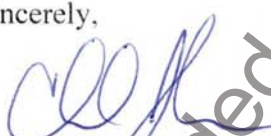

We NVIDIA Corporation hereby authorizes Amtran Technology Co., Ltd. to utilize relevant test reports and associated approval documents provided by NVIDIA under NDA, to substantiate conformance of Jetson TX1 (regulatory model P2180), to EMC and Wireless Communication Regulatory Frameworks of the United States and Canada.

The following additional exhibits may be used for the filing with the FCC and Innovation, Science and Economic Development Canada, however the confidentiality of this information must be protected in the filing process. Amtran Technology Co., Ltd. and their certified test lab must request confidentiality with FCC and ISED Canada when submitting the following three exhibits:

- Operational Description [includes any/all addendums such as software security]
- Block diagram
- Schematics

Please note that if Amtran Technology Co., Ltd. makes any changes to the product, including re-labelling that may cause loss of traceability to our regulatory compliance folder, Amtran Technology Co., Ltd. does so at its sole risk

Sincerely,

Charles Jackson
Compliance Engineering Manager
NVIDIA Corporation
