

1 PRODUCT LABELING

1.1 FCC ID label

This is a photo of the label stuck on the product. Because there is not enough room to set the FCC statement on a conspicuous place on the case, it will be on the user's manual

Color: Black on silver
Material: Aluminum Label

1.2 Location of the label on EUT

FCC information are set on the rear face of the product (see picture).

label will be stuck at that location

1.2.1 User's manuel

Just below, is a copy of the FCC statement set inside the user's manual

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions : (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Regulatory Information

Notice for the USA: FCC Statement

Federal Communications Commission (FCC) Radio Frequency Interference Statement (USA Only)

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protections against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try one of more of the following measures:

- Relocate the radio or television antenna.
- Plug the equipment away from the radio or television.
- Plug the equipment into a different electrical outlet, so that the equipment and the radio or television are on separate electrical circuits.
- Make sure that all your peripheral devices ar also FCC Class B certified.
- Make sure you use only shielded cables to connect peripheral devices to your equipment.
- Consult your equipment dealer, or an experienced radio / television technician for help.

Changes or modifications not expressly approved by GEMPLUS could void the user's authority to operate the equipment.
