

The image shows an interior view of an acoustic chamber. The walls are covered with a grid of square acoustic absorbers. On the floor, there is a large blue rectangular mat with many small, pointed protrusions. In the center, a white box with the text "X-Axis" is placed on a wooden table. To the left, a red and black mechanical device is visible on the floor.

X-Axis

The image shows a mobile phone standing vertically on a small white rectangular block. Two blue ribbons are draped over the top of the phone and the block, extending outwards. The entire setup is placed on a large, textured white surface. The background is a wall made of dark, square-shaped acoustic absorbers arranged in a grid pattern. The lighting is warm and comes from the upper right corner.
