DFW (VRC81) Remote Control

VRC81V is a 3-device universal BLE and IR remote control designed to be the ideal match for DIRECTV's Android DFW media platform.

DFW Remote Control provides top available remote control features including voice control, automatic discovery of devices and OneTouchView.

Voice Control: Subscribers are familiar with using voice on mobile platforms and it is a proven driver in increasing content purchases. By leveraging Bluetooth Low Energy technology VRC81 is able provide consistent and clear-quality voice delivery.

State of the Art Keypad

Hybrid Touch and Navigation Keypad
Allows for a seamless transition between a touchpad and clickable multi-directional navigation pad which accommodates for virtually any user-interface sequence.

QUICKSET[®]

Automated Discovery of connected devices to STB

Local and Online Control Database with OTA Code Updates with **"Prioritization engine"** based on localized market relevance

OneTouchView Activity Engine for optimized control using Discreet Infrared and CEC commands, bringing users back to their DIRECTV content with one key press

Key Functions

FCC Statement

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1. this device may not cause harmful interference, and 2. This device must accept any interference received, including interference that may cause undesired operation.

The user is cautioned that changes and modifications made to the equipment without the approval of manufacturer could void the user's authority to operate this equipment.
