Subject: Re: Questions Regarding FCC ID: MHATMS2

Dear Mr. Czumak / PCTest TCB

In regard to your questions as follows:

1. This correspondence is to verify that the loop antenna has been confirmed to have been rotated 360 degrees on it's vertical axis and also placed horizontally in an effort to maximize the emissions.
2. This is to also verify that the EUT was tested in 3 orthogonal planes.

Phil Inglis / TRP
