Ladies and Gentlemen,

In accordance with Sections 0.457(d) and 0.459 of CFR 47, Data Sciences International hereby requests confidentiality of all Circuit Diagrams, operational description and Parts List attachments for the subject application for a Class II change.

These documents contain detailed system and equipment description and related information about the product which Data Sciences International considers to be proprietary, confidential and a custom design and otherwise would not release to the general public. Since the design is a basis from which future technological products will evolve, Data Sciences International considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,
