

TXB-ZBM Module Labeling Information

Labeling Information

When the TXB-ZBM Module is installed in an RTI product it is permanently affixed to the host product and cannot be removed without the use of additional equipment. This TXB-ZBM Module is also not visible, nor accessible by the end-user. Any attempted access or removal of the TXB-ZBM Module by anyone other than RTI or its authorized Contract Manufacturers is strictly prohibited.

The TXB-ZBM Module will contain the following Identifiers in accordance with FCC 47 CFR Part 15, Section 19 and FCC 47 CFR Part 2, Section 925 and Industry Canada license-exempt standard(s):

FCC ID: MMURTI2000

IC: 3166A-RTI2000

The Identifiers will be displayed on the TXB-ZBM Module via a permanent silkscreen on the printed circuit board.

When installed in a host RTI product, the host RTI product will display verbiage to the effect of the following in accordance with FCC 47 CFR Part 15, Section 212 and Industry Canada license-exempt standard(s):

Contains Transmitter Module FCC ID: MMURTI2000

Contains IC: 3166A-RTI2000

or

Contains FCC ID: MMURTI2000

Contains IC: 3166A-RTI2000

The Operation Manual of the host RTI product will also display the following information in accordance with FCC 47 CFR Part 15, Section 19 and Industry Canada license-exempt standard(s):

This device complies with Part 15 of the FCC Rules and Industry Canada license-exempt standard(s). Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.
