RE: FCC ID: MQOTT600-50300

Attention: Kathy Grzovic

I have a few comments on this Application.

1. Please note that I cannot find the 2-condition statement in the manual or on the product. Please provide a sample 2-condition label in accordance with 15.19.
2. Please note that this is also categorized as a class B digital device. As such the manual needs to have the information to the user as required by 15.105b. Please provide a manual with the appropriate statement to 15.105b.
3. FYI - Please note that while a reasonable explanation of the greater than 5% power drift has been provided, shouldn't the actual measured power drift have been included in the measurement uncertainty?
