

**Reference:** Equipment Authorization / Application for Class II Permissive changes

- 1) (confirmation number: EA200969) of SATELLINE-3AS/TC/125 radio data modem, variant of SATELLINE-3AS/125 (FCC Identification code: MRBSATEL-3AS-125), and
- 2) (confirmation number: EA763562) of SATELLINE-3AS/TC/250 radio data modem, variant of SATELLINE-3AS/250 (FCC Identification code: MRBSATELLINE-3AS)

**Background:**

According to the 47CFR/ §0.457/ (d)/ (ii), materials relating to applications for equipment authorizations are not routinely available for public inspection prior to the effective date of the authorization. However, at the moment any person has access via the internet to all of the exhibits attached to our application. Therefore we would like to request according to 47CFR/ §0.459, that part of the material will be withheld from public inspection.

**REQUEST FOR CONFIDENTIALITY / ref. SATELLINE-3AS/TC/125 and SATELLINE-3AS/TC/250**

**§0.459/ (b)/ (1) Identification of the material:**

The following attachment files of the application no. EA200969 and EA763562:

- Schematics\_uCETRb.pdf
- LayoutDiagram\_uCETRb.pdf

**(2) Identification of the Commission proceeding:**

The confidential information mentioned above has been submitted via Electronic Filing Site to FCC / Office of Engineering and Technology on the 27<sup>th</sup> of January 2001, as attachments to our application no. EA200969 and EA763562.

**(3), (4) Degree of information**

The confidential files mentioned above contain technical details of the electronic circuitry of the product.

**(5) Possible harm caused by disclosure of the information**

Disclosure of the confidential information of the files mentioned above may result in easier 'reverse engineering' by the competitors, and therefore cause significant financial losses in business.

**(6) Preventing measures of the submitting party**

The applicant for the equipment authorization (Satel Oy) has relied on the standard way how the telecommunication authorities in various states handle the product documentation in connection with equipment authorization procedures.

**(7) Availability of the information**

The confidential information mentioned above is available only to the telecommunication authorities and to the specially authorized parties e.g. local service etc.

**(8) Period of non-disclosure**

The material should be withheld from public inspection as long as the product is on the market.

Yours Sincerely,  
SATEL Oy

Tapio Malmivaara  
Type Approval Engineer
