A Class II Permissive Change Application for Type Approve the variant under the existing certificate

Dear Sir / Madam,

We have type approval certification for our radio modem SATELLINE-3AS Epic (FCC ID: MRBSATELLINE-EPIC). Now we would like to apply our new variant P192-S under the same certificate with a few changes. The technical differences are described in the following document P192-S_technical_description_of_changes_FCC.

Yours sincerely,

SATEL Oy
