This image shows a close-up of a circuit board with several components. A 16.000 MHz crystal oscillator is visible, along with capacitors labeled C24, C25, C20, C22, and C23. A BEKEN BK7632 DAC chip is highlighted with a red box. The board also features a USB connector and a gold-plated edge connector.

A close-up photograph of a circuit board. The central component is a square integrated circuit (IC) labeled "BYK901 -00997A V0N43 2452-D". It has a large number of pins. To the right of the IC, there are several surface-mount components: a small capacitor labeled "C7", a resistor labeled "R3", and a larger component labeled "C10" with a yellow label "M49". Above the IC, there is a component labeled "DW35". At the bottom of the image, there is a row of six circular holes, with the label "J2" to their left. The text "JS-BYK901+BK3632 V1.1-20250109" is printed across the bottom of the board.
