

Admin Quick Guide

1 Mount EasyConnect Box

Connect power cable and network cable according to the image below:

If you want to mount the device on the wall, refer to the image below:

Press and hold the power button for 2 seconds to turn on the device.

2

2 Connect to EasyConnect Box

Connect to the box via wireless. The initial SSID for the device is EC_<WFM>. The WFM is printed on the back of the device.

3 Set up Admin Account

Type address: <http://admin.easyconnect.in> in a web browser to enter the Admin Login page.

Use initial username: **admin** and password: **admin** to log in. Change the password once after you log in for the first time.

4 Complete Setup Wizard

In admin home page, click **Setup Wizard** to open the wizard. Select a network mode to get started. For the device is EC_<WFM>.

In **Wireless Settings** step, recommend to use a classroom name or other names that can be easily recognized by teachers and students as the device SSID.

In **Teacher Account** step, you can setup the initial username and password of the teacher account.

Tip: If the teacher loses their username or password, you can reset the teacher account in **Account Settings > Teacher Account**

3

5 Pre-load/Upgrade Content

Some content may be pre-loaded on the device before being shipped out of the factory, depending on the configuration of the device. You can pre-load or upgrade the content in **Device Management > Content Upload**.

There are two ways to upload the content:

- Select the first option, select the content package on your computer, and then click **Upload** to upload the package via wireless.
- Copy the content package to the root of a USB stick, plug it into the EasyConnect box. Select the second option, and then click **Upload** to upload the package from the USB.

- Note:**
- Content package must be a ZIP file and not be password protected.
 - If there are pre-loaded content on the device, this operation will overwrite existing content.
 - It may take long time to upload, validate and unzip the content package. Please do not interrupt the process once it starts.

Teacher Quick Guide

1 Connect to EasyConnect Box

Open the wireless network connection menu on teacher computer and select the network name given by the device administrator.

2 Log in Teacher Account

Type address: <http://mycontent.easyconnect.in> in a web browser to enter the Home page. Select the **Teacher Login** link on the upper right side of the page to enter the **Teacher Login** page.

Use the initial username and password given by the device administrator to log in.

4

3 Browse Content

In the **Library** page, you can browse all the public content stored on the device. Select a subject and category on the left panel to browse specific content by category. You can also search content by keyword.

4 Mange Your Content

In the **Library** page, you can upload, edit and delete your own content.

5 Assign Content to Lesson

In the **Library** page, you can create new lessons in the left panel. Drag the content to the panel directly, or select content and click **Add to Lesson** to assign the selected content to the lesson. Students will see the content on their **Lessons** page after they join the lesson.

6 Feature Important Content

You can feature lessons and content from the **Lessons** and **Library** pages so they will be shown in the Home page. Use the star icon to feature or unfeature items.

5

Student Quick Guide
(for teacher use only)

1 Connect to EasyConnect Box

Open wireless network connection menu on student computer and select the network name given by the teacher.

2 Join Lesson

Type address: <http://mycontent.easyconnect.in> in a web browser to enter the Home page. Students will see the content and lessons featured by the teacher.

In the **Lessons** page, students will see all of the lessons created by the teacher. Select one lesson to open it.

Techical Support

System Configuration

Package include: EasyConnect Box, power adapter, Quick Guide
Model: WRTD-303N
CPU: Intel Bay Trail-I Single Core (E3815) 1.46GHz
RAM: 2GB
Storage: 500GB
Wireless Capability: 50 clients
Wireless Mode: IEEE 802.11a/b/g/n/ac
Weight: 607 g (battery included)
Power: AC Input: 100-240V, DC Output: 12V/2A
Dimensions: 190mm x 190mm x 30mm (L x W x H)
Temperature: 0~35
Power Consumption: 6W

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Radiation Exposure Statement:

The product comply with the US portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Country Code selection feature to be disabled for products marketed to the US/CANAD

Operations in the 5.15-5.25GHz band are restricted to indoor usage only.

Europe – EU Declaration of Conformity

This device complies with the essential requirements of the R&TTE Directive 1999/5/CE. The following test methods have been applied in order to prove presumption of conformity with the essential requirements of the R&TTE Directive 1999/5/CE:

- **EN 60950-1:2006+A11:2009+A1:2010+A12:2011+A2:2013**
- **EN62311 : 2008**
- **EN 300 328 V1.8.1: 2012**
- **EN 301 489-1 V1.9.2: 2011**
- **EN 301 489-17 V2.2.1: 2012**

In Italy the end-user should apply for a license at the national spectrum authorities in order to obtain authorization to use the device for setting up outdoor radio links and/or for supplying public access to telecommunications and/or network services.
