List of Equipment and Services Covered By Section 2 of The Secure Networks Act

Section 1.50002 of the Commission's rules directs the Public Safety and Homeland Security Bureau to publish a list of communications equipment and services (Covered List) that are deemed to pose an unacceptable risk to the national security of the United States or the security and safety of United States persons, based exclusively on any of four sources for such a determination and that such equipment or services possess certain capabilities as enumerated in section 2(a) of the Secure and Trusted Communications Networks Act of 2019, Pub. L. No. 116-124, 133 Stat. 158 (2020) (codified as amended at 47 U.S.C. §§ 1601–1609). Pursuant to the Commission's rules, the Public Safety and Homeland Security Bureau will maintain this list on the Commission's website, and will monitor the status of any determinations in order to update the Covered List. More information on how the Covered List is compiled and updated can be found in the Commission's rules at 47 C.F.R. § 1.50000 *et seq.*

††For purposes of inclusion of UAS and UAS critical components, we incorporate the definitions included in the associated [National Security Determination](#).

±The scope of the Covered List is affected by the [Conditional Approvals](#) that we have received.

#The “Blue UAS List” referred to in the [National Security Determination](#) is the combination of the “Blue UAS Cleared List” at <https://bluelist.appsplatformportals.us/Cleared-List/> and the list of compliant UAS components and software at <https://bluelist.appsplatformportals.us/Framework/>. We use the term “Blue UAS Cleared List” to refer to both lists.

^For purposes of inclusion of routers, we incorporate the definitions included in the associated [National Security Determination](#).

Importation/Marketing Prohibitions

(Updated July 10, 2026)

Importation/Marketing Prohibitions on Previously-Authorized Covered Equipment

In order to mitigate potential national security risks associated with covered equipment that was authorized prior to a Covered List addition under 47 U.S.C. § 1601(b), the Commission, in the [EA Security](#)

Second Report and Order, created a process allowing PSHSB and OET, through delegated authority, to limit existing authorizations to stop further importation or marketing of covered equipment in order to mitigate national security risks. Under this process, codified at [47 CFR § 2.939\(e\)](#), PSHSB and OET must issue a Public Notice identifying the affected equipment, provide at least 30 days for public comment, and conduct a public interest analysis before determining whether to apply such limitations. Below is the list of covered equipment subject to importation and/or marketing prohibitions.

Equipment Subject to Prohibitions	Public Notices	Effective Date
Equipment added to the Covered List 2024 or earlier. See the full list here: https://www.fcc.gov/supplychain/coveredlist	June 26, 2026 Public Notice	In general, 10 Days Following Federal Register Publication ¹

¹For equipment subject to use-based limits, the prohibition on importation and marketing for the purpose of physical surveillance of critical infrastructure is delayed until the Commission adopts a new definition of “critical infrastructure” and that definition takes effect.
