

American Telecommunications Certification Body Inc.

6731 Whittier Ave, McLean, VA 22101

June 26, 2001

RE: Hyperlink Technologies
FCC ID: MYF-WL2401

Please submit the following information.

- 1.) The original Grant was very specific about allowable antennas, cable lengths, channels, etc. Please see System Configuration Information submitted to the Commission on 08 July 2000 in the original filing. Please provide the additional information on these two new antennas including cable length as required.
- 2.) When calculating RF Exposure please show work.
- 3.) Please submit users / installers manual. For all Class II changes, the manual must contain new warning statements for RF exposure same as new equipment. This manual is of critical importance to the submission.
- 4.) Will the device require relabeling? If so, please submit new label.
- 5.) For the purposes of band edge measurements, does the RF emissions envelope change shape as the EUT changes bit rates?

Any questions, please contact me directly.

Bill

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
